

THE BLAIRMORE ENTERPRISE

VOL. XIV, NO. 17.

BLAIRMORE, ALBERTA, THURSDAY, APRIL 26, 1923.

\$2.00 YEARLY

As a result of recommendation made by the Fernie Board of Trade, the Canadian Pacific Railway Co. will include a full-page write-up on motoring in the Canadian Rockies and also a full-page map of roads in their booklet for 1923, "Resorts in The Rockies." It is a decided innovation for a railroad company to ad-

vertise a mode of transportation which is cutting into their passenger and freight receipts to a very serious extent.

If the druggists would double the price of some of their paints and powders, we might see enough of folks to be able to effect an acquaintance.

ODDFELLOWS AND REBEKAHS TO CELEBRATE ANNIVERSARY

The one hundred and fourth anniversary of the founding of American Oddfellowship will be celebrated by local Oddfellows and Rebekahs at their hall tonight.

The prescribed order of service will take place at 7:30, followed by a Roll Call for both lodges, after which a programme of speeches, songs, etc., will be carried out.

All visiting Oddfellows and Rebekahs are cordially invited to attend.

LITTLE GIRL VICTIM OF ACCIDENTAL GUN DISCHARGE

A sad fatality occurred on Saturday evening last at the old Glen Bowerman ranch near Burnis, when Winnie, the little four-year-old daughter of Mr. and Mrs. A. Chadwick, late of Edmonton, received the charge from a .22 rifle when the trigger was pulled by her little brother of five years.

It appears the father had been out shooting gophers and coming in laid the loaded gun down, not thinking of the danger to the kiddies. The little girl passed away at an early hour on Sunday morning.

CARD OF THANKS

Mr. J. H. Seatt desires through the columns of The Enterprise to thank all friends in Blairmore for assistance during the recent illness of his wife, and to the family in the hour of their bereavement.

Number one of volume one of The Kootenay Times, a new weekly paper being published at Nelson by Hall & MacDonald, has reached our desk, and appears bright and new.

COUNCIL ORDERS SUSPENSION OF BUILDING OPERATION

The regular meeting of the town council was held on Monday evening attended by Mayor McLeod and Councilors Alex. Morency, J. Angus McDonald, William Patterson and Evan Morgan.

The minutes of previous meeting were approved as read, and the following accounts were passed for payment, subject to approval by the various committees: James Burrows for services last fall as special constable, \$10.00; J. Foreman \$24.50 for work on waterworks; T. Jones \$25.00; Department Attorney-General \$87.50; Blairmore Enterprise \$8.50; Alberta Government Telephones \$12.75; Canadian General Electric Co. \$63.78; Western Municipal News \$26.97; Union of Alberta Municipalities, membership fee for 1923, \$12.50; P. E. Osborne \$3.12; S. Ennis \$17.30; Metals Limited for three hydrants \$314.37; R. Crayford, labor \$36.30; Clerk District Court for copy deposition Rex versus Mancini, \$2.65; F. Wright \$160.00; J. Spence \$150.00; W. Lorne \$150.00; W. Lorne, commissions \$10.50.

Communication was received from J. McDougall, declaring acceptance position of fire chief.

Several applications for permission to erect buildings, etc., were received. One received from James Amatto, addressed to "Your Lordship the Mayor, Minister of Public Works and Councilors," asked permission to erect a building of frame on a 20 x 36 foundation of cement.

Another from David Kemp for permission to build verandah at front of his residence on Dearborn Street, lots 9 and 10 in block 24.

F. Rhodes, prayed approval of plan of chicken house to be erected near his residence on lots 12 and 13 in block 2. Plans submitted outlined very comfortable accommodation.

Delbert Ennis asked permission to use surface pipe leading from residence of D. Rees to his residence on Eighth Avenue until such time as extension of main could be effected in that locality.

T. Christie outlined proposed alteration to his residence on a lot purchased from the town, alterations to entail an expenditure of about \$300.

Practically all the above were approved, subject to o.k. of the chairman of works and property committee.

Application was received from Contractor E. J. Pozzi for permission to erect an addition to a building on lot 10 in block 25 on Dearborn Street. The council were aware of the fact that the work had been proceeded with pending permission from the council.

Objections were entered by residents of the immediate neighborhood, based upon the assumption that the operation of a sash and door factory would cause some annoyance through noise, dust, etc. John Kubie complained that the addition going up obstructed the view eastward from his residence. A motion was passed that E. J. Pozzi be ordered to cease operations.

S. Ennis' application for permission to build a garage was granted, as was also the application of Lach and Michalsky for permission to erect addition to their store building on Sixth Avenue of ship and shingle roof, as per sketch submitted.

Council decided to rigidly enforce the "Clean-Up" and to prosecute anyone whose premises were not in satisfactory condition by May the 2nd.

Dr. J. Olivier was appointed medical health officer at a retainer of \$250 for the year 1923.

The matter of introducing a scavenging system for the town was suggested and it was decided to place before the council at its next regular meeting a concrete plan.

Mr. and Mrs. H. M. Bennett and children paid a visit to Lethbridge by motor on Tuesday.

Looking Forward

The more you think about the future, and about Opportunity and Success, the more enthusiastic you become about being a money saver.

If you have mastered the art of saving, you can forecast with reasonable accuracy how much of a factor you will be in the days of opportunity which are drawing near.

BASEBALL CLUB HOLD

ENTHUSIASTIC MEETING

A large crowd of enthusiastic baseball fans attended the meeting held at the Crowe's Nest Pass Motors on Thursday evening last and the club is now away to a good start for the season.

A statement of last year's finances showed that the club just barely broke even. The election of officers took place and resulted as follows:

Honorary President—Mr. J. Charbonnier.
Honorary Vice-Presidents—Messrs. G. A. Vissac, Harry Burns, Mayor A. McLeod, P. M. Christophers, M.P.P., J. E. Gillis, W. T. Dickson.

President—W. Bird, (re-elected).
Vice-President—J. Millen.
Secretary-Treasurer—J. McDougall.
Captain—M. Pruden.

As the uniforms of the club are all in very bad shape, and some 67 men missing, it was decided to purchase new ones and the color decided on is cream with a thin blue stripe and blue trimmings. This brought up a discussion of ways and means and a tag day will be held on Saturday next to raise the necessary funds.

According to reports, a large number of players in town and a first-class team is expected. Practices are being held on the field nearly every evening now and players are cordially invited to turn out.

The club has made application to enter a team in the competition on May the 1st and we understand that three other teams are entering.

The possibilities of a league with nearby towns was discussed and the secretary was instructed to get in touch with them and a meeting will likely be held soon to organize a league including all the towns between

Patience Creek and Michel.

The local team will play a team of Cowley and Patience Creek players at Cowley on May 25th.

A PILGRIM FROM RUSSIA

On Tuesday evening the miners' hall, Blairmore, was packed to hear an address by Comrade Specter, of Ottawa, one of the delegates sent by the Communist party of Canada to attend the Fourth Congress of the Third International at Moscow.

P. M. Christophers, M.L.A., president and briefly introduced the speaker, who is not only a keen student, but an able exponent of the revolution as a movement, in both Europe and America.

Mr. Specter held his audience spell-bound for over an hour while he related the aims and objects of the Soviet Government in Russia and its beneficial effects upon the workers of that or any other country. In Mr. Specter's opinion, the workers of this or any other country have little to hope from the trades union movement and their only salvation lies in the communist movement, which for the time being must be worked from within the ranks of the craft unions and trade organizations.

The collection amounted to \$29.00, after which a number of questions were put and answered. In reply to a question by Mr. F. Wheatley, the speaker said: "The Labor Party of Great Britain, as it exists at present, would never be able to accomplish the overthrow of capitalism. That could only be done through the revolutionary movement."

The singing of the Red Flag brought the meeting to a close, after which three rousing cheers were given for the Russian revolution.

\$2000 GRANTED TO FURTHER
INVESTIGATE DIABETES CURS

The medical council of Alberta gave a grant of \$2000 to assist Professor Collip in the investigations with insulin and its kindred products.

Dr. Collip, of Edmonton, is a bio-chemist, and while doing research work in Toronto a year or so ago, it was suggested by Dr. Banting, that as certain secretions necessary for proper digestion were absent in patients suffering from diabetes, this lack should be supplied from sources outside the patient himself. In conjunction with Dr. Banting and Dr. Best, Dr. Collip commenced his investigations and after much work and many experiments, succeeded in isolating a product which he named "insulin." At present however, the product is too expensive to be generally used, and Professor Collip is experimenting to develop "insulin" or an allied product so cheaply as to be easily available for any sufferer from diabetes. The present donation by the medical societies \$7,000 they have given the university for this work.

FERNIE TO CALGARY

Daily papers of Alberta on April 16 contained the information that work would be commenced on the Fernie to Calgary railway. Mr. Franklin Crandell is a former citizen of High River and has been identified with this project for several years and we believe has been successful in getting British capital interested. The article reads: "Construction of the railroad from Sparwood, near Fernie, B.C., to Calgary by the Calgary and Fernie Railway Company, work on which was started in 1912, will be resumed this summer, according to announcement made by Franklin Crandell, one of the directors of the company, on Monday morning. It is the intention to construct 50 miles of the line this summer from Sparwood directly north to Mount Wilson. The cost of the construction of the road, together with the cost of building a cally at Mount Wilson will amount to approximately \$3,500,000, and the capital for this part of the road has been assured. The road has been surveyed for the entire distance of 157 miles and when the line is completed from Mount Wilson it will come into the city from the southwest."—High River Times.

PREFERENTIAL BALLOT

Following is the form of ballot proposed to be voted upon by the people of Alberta some time prior to August next:

(A) Prohibition, meaning thereby a continuance of the present liquor legislation.

(B) "Licensed Sale of Beer"—Meaning thereby the sale of beer in licensed hotels and other premises as provided in the proposed Temperance Act.

(C) Government Sale of Beer—Meaning thereby the sale of beer by or through government vendors for consumption in private residences under government control and regulation.

(D) Government Sale of All Liquors—Meaning thereby the sale of all liquors by or through government vendors—Here to be consumed on licensed premises and in private residences; wine and spirits to be purchased in limited quantities under permit issued by the government under government control and regulation.

OUR SHORT STORY

A fashionable woman, who to save expenses, collected her own rents, found one of her tenants in bad humor. She thought it wise to forestall his complaints by making one or two herself.

"And the kitchen, Mr. Holt," she said, "is in terrible condition."

"Yes, ma'am, it is," agreed Mr. Holt, "an' you'd look the same way if you hadn't had any paint on you for six years."

A resident of Blairmore, a teamster by trade, purchased a Ford touring car last week. He was for a time puzzled to know how the car should be run. He entered his garage one morning, measured up the gas, cranked her until she buzzed and rattled. Then he took his seat behind the wheel and placed a foot heavily upon the "back-up" lever. The car jumped off the floor and hit a gate about fifteen feet away. Having released his foot-hold in the flight, he again took little time to discover the trouble. He placed his foot on another lever and the car took another jump, this time going headlong through the back end of his garage. No damage was done to the car. The occupant hunted around for other levers. There being only one other he dared not try it, fearing the next dash might land him into

500,000,000 Miles of Service

More than one hundred thousand owners know the sturdiness of Studebaker Light-Six construction. They know that it is powerful and economical, because their Light-Six has come through 27 world-wide tests having established an average fuel consumption of 26.9 miles to the gallon.

The value of the Light-Six is high, because it is manufactured completely by Studebaker, thereby eliminating parts-makers' profits. You can feel secure in the purchase of a Light-Six—because of its proven dependability and economy—and because it is backed by Studebaker's 71-year-old reputation for honest value and fair dealing.

New Canadians Start For Canada

A Busy Scene at the Liverpool Dock.

THE facilities for handling outward bound passengers at the Canadian Pacific dock at Liverpool, England, are as perfect and speedy as any in the world. As will be seen from the picture above of future Canadian citizens boarding the "Montclair", the travellers pass from the street and railway station levels to waiting rooms on the dock side, and crossing the bridged wharf, board the ship by the saloon deck where they are received and assigned to quarters. Their baggage is handled from below and with despatch. A travelling belt carrier operated by an electric dynamo eliminates the necessity of many noisy and slow moving winch hoists which when used and not too carefully operated, are the cause of many trunks and boxes being damaged, so that the baggage is carefully loaded and distributed almost as quickly as the passengers are received. It is usually planned to have all the passengers aboard at least half an hour before sailing time, and the gangway is down for their reception about three hours before that time unless special trains are scheduled to arrive earlier. As for other dock-side facilities, the Montclair commenced to take on coal and discharge cargo, mostly package freight, at six o'clock of the morning of a recent arrival. By 2:45 in the afternoon she had taken 1,000 tons of coal into her side bunkers, and at the same time she was unloading 1,700 tons of freight, this being discharged by 7:15 the same evening.

Fire on the premises of the Imperial Oil Company and Prairie Oil Company at Medicine Hat did damage on Tuesday estimated at over a quarter of a million dollars.

Mrs. E. Piccarillo and Charles Lassandro returned Wednesday morning from a visit to E. Piccarillo and Mrs. Lassandro at Fort Saskatchewan. They were called back to Calgary last night and left on the 10:45 train.

The Miners' Grocery, T. Ponderick & Son, proprietors, announce that they will move into the Brunetto Block, next to The Enterprise, in the store being vacated by the Cash Grocery. Mr. F. Brown, of Maple Leaf, will open a first-class ice cream parlor in the building being vacated by the Miners' Grocery.

News of a unique wedding comes from Vulcan, where a Mrs. Clark, of 73 years, was married to John J. Prentice, of 75 years. The romance began in the early days of their life. The bride was given away by her youngest son, while her oldest son was groomsmen. Mrs. Johnston, a granddaughter, was bridesmaid, and little Leta Johnston, a great-granddaughter, was ring bearer. It was a family affair throughout.

A candidate for the position of the world's meanest man has appeared in the person of the editor of a small newspaper who published the following item in his "Social Gospel" column: "Miss —, a young lady of twenty summers is now on a visit to her twin brother, aged thirty-one."

ANOTHER SUCCESSFUL
C. S. E. T. CONCLAVE

The C. S. E. T. Conclave held at Hillcrest last Friday night was one of the most successful events ever staged by the C. S. E. T. Boys of The Pass. About three hundred persons, including the boys, men and women, sat down to a sumptuous supper at 6:30 sharp, which would have done justice to the Rita Carlton, and to which more than justice was done. This was followed by a few songs to kind of settle the atmosphere. Then came the fireworks. W. Grant, of the Hillcrest Taxis, occupied the chair and first called for the speech of welcome, which was responded to by Tuxis representatives from Bellevue and Blairmore.

The Beavers, youngest members of the movement, then competed in songs, yells and speeches. Only the Hillcrest and Blairmore groups were present and the former won by a narrow margin of points. They all did exceptionally well for the age of the boys and the length of time they have been organized.

Next came the Trail Ranger group. Hillcrest and Blairmore had three teams each, while Bellevue had one. Each team or group had their turn at speech-making, singing, yelling and games. As it would take a whole book to tell all that is worth telling, we will just say that they all excelled themselves and were greatly enjoyed. Their marks were as follows:

Hustlers, Hillcrest 138
Communitators, Blairmore 138
Tigers, Hillcrest 123
Buffaloes, Hillcrest 123

No. 1 Non-Skids, Blairmore 117
Live Wires, Bellevue 107

No. 2 Non-Skids, Blairmore 107

After the Trail Rangers came the Tuxis, which is composed of older boys, and their work, speeches especially, were well worth listening to. Their songs and yells were also excellent but in the games they did not show up as well as the younger lads. Hillcrest and Blairmore each had two groups, and Bellevue one. Following are their marks:

Hillcrest No. 2 103

Blairmore No. 1 100

Bellevue 99

Blairmore No. 2 95

Hillcrest No. 1 93

As the marks show, there was little to choose from between the five Tuxis groups, there being only ten marks difference in the lowest and highest.

Great credit is due the leaders of the different groups, as well as the community leaders, Revs. Pinder, Peters and Young, and not forgetting the ladies who worked so hard and provided the eatables.

The judges were C. V. Asselstine, Bellevue; A. N. Warriner, Hillcrest; M. B. Hoffman, Blairmore.

About sixty boys from Blairmore and thirty from Bellevue were in attendance.

During an intermission Ed. Royle, on behalf of the Workmen's Compensation Board, presented about fifteen Junior First Aid Certificates to some of the boys.

LOCAL SCHOOL BOYS MAUL
COLEMAN TO TUNE OF 18-4

In spite of the light snowfall and cold wind Coleman arrived here last Saturday afternoon for the first exhibition ball game of the season with Blairmore. The score indicates what happened. Until the seventh inning Coleman used two substitute pitchers and the local boys hit them almost at will. Babs Johnson, their regular hurler was put in at the seventh and he stopped the rush, but not until the locals had amassed a total of 18 runs.

For the locals, Charlie Brown was going at top form on the mound, G. Bond completing a very acceptable battery. The infield went through the game with hardly an error, but the fielders played a little loose. Bond and Howe hit effectively in the pinches. The Blairmore lineup was as follows: C. G. Bond; P. C. Brown; 1b. C. Howe; 2b. G. Webb; 3b. D. Gause; ss. D. Kemp; lf. F. Brisoli; cf. R. Pinkney; rf. R. Thompson.

The first league game will be played here against Hillcrest on Saturday, April 28th, at 2:30 p.m. Turn out and root for the boys.

NOTICE

Services will be held in St. Luke's Anglican church on Sunday, April 29th, as follows, conducted by Rev. W. C. Marsh, of Claresholm:
Morning at 11, followed by Holy Communion.
Evening at 7:30.

GOLF

The first of the monthly competitions for the ladies will be on Saturday, May 5th, at 2 o'clock. All members are expected to take part in these competitions. Tea will be served at the clubhouse after the round.

FIGURE IT YOURSELF

Nobody ever added up
The value of a smile;
We know how much a dollar's worth,
And how much is a mile;
We know the distance to the sun
The size and weight of the earth,
But no one here can tell us just how
much a smile is worth.

A BAUGHTY CAPITALIST

The laboring man of seventy years ago was pretty well satisfied. Labor troubles were almost unheard of then, though at infrequent intervals an employee would find a grievance against his employer. That of the machinist whom Mr. A. B. Farquhar tells of in his book The First Million the Hard-earned is certainly amusing, viewed at this date.

One afternoon, says Mr. Farquhar, a machinist came to us in high dudgeon from another shop and asked us for a job. We wanted to know of course why he had left his old place.

"It was this way," he said. "The boss was out walking with a lady the other night, and I passed him and said, 'How do you do, Harry?' And the next day he came around to me and said, 'When I am out walking with a lady in the evening, I don't want you to speak to me.' I won't work for a man who acts that way!"

The Life Underwriters of Alberta are staging a competition for the month of May, that promises to be of interest, not only to those engaged in the business of life insurance, but of considerable interest to the general public. The Edmonton branch offices have challenged those of Calgary, and the latter have accepted the challenge for a contest to prove which division can produce the largest volume of paid-for business during the month. It will thus be largely a fight between north and south Alberta, and as the life insurance business is regarded as a fairly accurate barometer of general business conditions, the result will be watched with interest.

We understand that the A.P.P. dry squad made a successful raid at Cowley last evening, capturing a quantity of illegal beer and some liquor.

By a vote of 20 to 11, the Presbyterian church union committee, with delegates from all over Canada, resolved to press the proposed bill for union with the Methodists and Congregationalists. The resolution was made by Dr. C. W. Gordon, of Winnipeg, and seconded by Judge Swanson, of Kamloops, B. C.

The attorney-general had several comparisons to make when questioned regarding the \$6,000 salary per annum to Rev. E. S. Bishop, Liquor Commissioner of the province. Mr. Davidson, of Calgary, put the questions, as he considered the salary too high.

Mr. J. H. Green, of the Bellevue garage, has procured the services of Mr. T. W. Brohman, as sales and service manager. Mr. Brohman, who was formerly service manager of the Packard Ontario Motor Co., Toronto, has already devised service schemes whereby it would save any owner money to look into.

The City of Fernie has let the contract for replacing considerable of the wood-pipe water mains with iron pipe. It is thought that, while Blairmore's wood water mains, were expected to live for twenty years, that a similar change to that at Fernie will have to be made within the next

four or five years, the life of the present pipe line ending practically after fourteen or fifteen years of service.

Nova Scotia Member Advocates Secession From The Dominion

Halifax, N.S.—Secession from the confederated provinces of the Dominion of Canada and the setting up of Nova Scotia as an independent self-governing British Dominion, was advocated in the House of Assembly by H. W. Corning, (Conservative, Yarmouth), in a resolution calling for a referendum vote of the electorate to ascertain whether the people of the province are in favor of such a move.

Mr. Corning's argument was based on several points which he claimed justified the action proposed. The split of the Confederation pact, he said, had been violated in respect to the Intercolonial Railway, now part of the Canadian National system, and Nova Scotia, as a part of the Dominion, was not receiving fair treatment in the matter of freight rates, way shipping and other activities upon which the prosperity of the province depended.

By her remoteness from populous centres, the isolated Nova Scotia could not compete with Quebec and Ontario in the marketing of farm products, and in addition, the markets of Nova Scotia were invaded with the surplus of those products which did not find a reciprocal market for Nova Scotia products. Nova Scotia was forced to support the policy of protective duties that were mainly beneficial to other provinces, while increasing the cost of living at home with no balancing benefits.

He returned to the subject of Atlantic ports owing to the indifference

of Quebec, Ontario and the western provinces, ignoring of home markets and those abroad due to Confederation, the burden of tax that was becoming intolerable, and enforced share in loss in operations of huge railway systems which were building up commerce for American ports at the expense of the Canadian Atlantic ports and the intercolonial division of the system.

He declared that Nova Scotia, as an independent, self-governing British Dominion, would be able to protect its fishermen and industrial workers through trade treaties and tariff measures, preserve home markets and furnish employment for its people, profitable investment for its capital and build up enterprise and population.

Would Engage Expert

Advocate Seeking Advice of Sapiro On Marketing Question

Calgary—H. W. Wood, President of the United Farmers of Alberta, strongly favors farmers of Western Canada seeking the advice of Aaron Sapiro, the California co-operative marketing wizard, before they commence marketing their wheat under a wheat pool, according to a statement he made here. "I understand the Alberta Government has set aside \$10,000 to be used this summer for the purpose of investigating wheat marketing in all its phases," Mr. Wood said. "I consider Mr. Sapiro the highest authority on co-operative marketing of primary farm products on the North American continent, and his advice should be sought in any matter pertaining to the marketing of wheat by a voluntary marketing system."

Advance Lake Freight On Grain

Winnipeg—An advance in Lake freight for grain has been announced here. Steamship agents are asking six cents from the Canadian lake terminals to Buffalo, an advance of 1 1/2 cents during the past two weeks. Shipowners stated they cannot get tonnage for out shipments on opening of navigation, but that plenty of space is available for wheat.

Acquitted On Murder Charge

Moose Jaw—Proceedings in the trial of Andrew Semko, charged with the murder of Constable Anthony J. Tierney in C.P.R. yards on the morning of April 8, 1922, came to an abrupt conclusion when Mr. Justice Ramsey, after listening to argument from J. W. Corns and W. M. Rose, Crown Attorney, declined to allow the case to go to the jury.

Larkin To Be Deported

Washington—Deportation of James Larkin, the Irish agitator who was pronounced several months ago by Governor Smith of New York, after serving two years of a five-year prison sentence imposed as a result of conviction on a criminal anarchy charge, has been ordered by the Labor Department.

Christians Leave Turkish City

Constantinople.—Christians are fleeing from Alexandretta, owing to strained relations between France and Turkey, according to the official Anatolian News Agency. Five hundred Armenian families already have departed from the city.

Celestial Young Dead

Fort Worth, Ont.—Lt. Col. John Douglas Young, D.S.O., M.C. (two bars), died here aged 42. He was commanding officer of the 52nd (Lake Superior) Battalion and went overseas in 1915 as Lieutenant.

Tallahassee, Fla.—The House voted 63 to 15 to abolish corporal punishment in this state in the handling of county prisoners.

DEMAND FOR FARM LABOR

DEPARTMENT OF LABOR REPORTS IMPROVEMENT IN EMPLOYMENT CONDITIONS

Ottawa.—Employment conditions throughout Canada showed improvement during March, according to the Department of Labor. A resumption of demand for farm labor was noted in the prairie provinces, and improvement in the manufacturing group were noted.

Loading operations were suspended in many districts awaiting the spring drive, but in British Columbia, the business showed gradual betterment.

At the beginning of March the percentage of unemployment among members of trade unions was 5.4 as compared with 7.3 at the beginning of February. Industrial disputes involving 1,431 employees and a loss of 34,024 working days. During February there were 19 disputes, involving a time loss of 51,675 working days distributed among 5,087 employees.

ASK LEAGUE FOR HELP

WORLD ALLIANCE WANTS TRIBUNAL TO SETTLE REPARATIONS QUESTIONS

Geneva.—A resolution asking the League of Nations to take the initiative in bringing about a settlement of the reparations question in a sound economic basis was officially presented to Sir Eric Drummond, Secretary-General of the League, by the World Alliance for Promoting International Friendship through the Churches. The resolutions, advocate, the constitution of a body to which all the parties could submit their case, organization of financial resources for carrying the decision into effect and a system of mutual protection in the interests of general peace.

Chile Makes Proposal To Limit Armaments

Suggests Acquiring No Ships During Five-Year Treaty

Santiago, Chile.—Chile, before the armaments commission of the pan-American conference now in session here, proposed a five-year treaty, recommending a five-year treaty, during the term of which no capital ships would be acquired. The treaty would expire May 1, 1928, but would be automatically renewed for five years more unless denounced by a signatory nation. Chile also announced that she was ready to enter into agreement to limit land armaments.

HAD BAD PAINS IN HER HEART

Nerves Were Very Bad

Mrs. John Case, R. R. No. 4, St. Catharines, Ont., writes: "I wish to say that I have been bothered very much with my heart and nerves, and I do not get much relief. I would times, I would be almost afraid to move or breathe, and at night I could not sleep. If the pains in my chest were gone, my nerves would be out. My stomach was also very bad and I could eat but very little, and have so much distress which always made me heart weary."

I had been suffering for nearly two years until one day I was talking to our druggist about the way I felt. He advised me to give Milburn's Heart and Nerve Pills a fair trial. I have now taken five boxes and am feeling so much better. I am able to do my own work, and can eat anything I wish. I cannot praise

HEART AND NERVE PILLS too highly."

Fighting Prairie Pests

Do Not Anticipate Serious Trouble From Grasshoppers This Year

Winnipeg.—Entomologists from the United States and the western provinces were in session here, exchanging information on the various forms of experimental and research work carried on in the two countries. The representatives attending the session here do not anticipate any serious or general return of the grasshopper pest, but do anticipate outbreaks in some districts. No change in formula for poison will be made this year.

Very considerable trouble is anticipated from western stem saw fly, and it was suggested that those who would do spring plowing for wheat in districts where the fly existed last year should plow deep and immediately pack the land.

Hessian fly is looked for to give trouble on heavy land, more especially in the north central districts. This is a disease that has hitherto been little known in western Canada, and detailed descriptions of how to detect it and its methods of operation will be published later.

Will Hold Corn Show

\$500 in Prize Offered in First Provincial Show in Saskatchewan

Regina.—Over \$500 is offered in prizes in the provincial corn show for the first provincial corn show to be held at Maple Creek, November 15 and 16. There are nine classes, with 20 prizes offered in the principal classes for North Dakota, White Flint, Golden Yellow Flint and Northwestern Dent, and nine to 15 prizes in the other classes.

Samples of the excellent corn produced in the Maple Creek district were sent to the Ogilvie Flour Mills at Montreal by the local branch of the provincial department of agriculture, and on testing the samples for milling purposes the company was so impressed that the management offered the department a sum of \$1,250 payable in 10 installments of \$250, for the purpose of promoting the growing of corn in Saskatchewan. The Maple Creek Agricultural Society agreed to offer a similar amount or more, if necessary, to promote the first provincial corn show.

British Living Costs

London.—Statistics prepared by the Department of Labor show that the cost of living in Great Britain on March 21 last was 74 per cent. above the pre-war level, but the lowest since April, 1917. On Feb. 28 last the cost was 74.6 above the pre-war level.

Chinaman Jumped 130 Feet

Vancouver.—Tong Ching jumped 130 feet from the Georgia Viaduct here into a railway yard, but struck a small pool of water and mud and sustained only minor injury. Police believe his dive was deliberate.

Labor Party Delegation Makes Report On The Situation In The Ruhr

London.—France is spending millions on the occupation and getting next to nothing out of it; she is using a whole to catch a spout.

This strikingly-phrased conclusion is contained in the report of the Labor party's delegation which went to the Ruhr about the middle of March to investigate the situation there and in other parts of Germany. The delegation was composed of Thomas Shaw, Charles R. Burton and William Adamson, all members of the House of Commons.

The report declares that the delegation found a state of war existing in the Ruhr, and lays stress on the dangerous possibility for the future of such conditions, where the occupation force runs the risk of being "inextricably involved in the common ruin and being itself wiped out."

Admitting incompetency to express an opinion on the legal aspects of the situation, the report proceeds: "In our judgment, the situation cannot adequately be dealt with by any machinery under the treaty of Versailles, but requires a new instrument international in character, in the framing of which the German people should participate."

The report makes no definite recommendations, but suggests that delay may be fatal, an appeal should be made to the French and German Governments to submit their proposals with regard to reparations and security to an international tribunal, and, since British interests are more directly involved than those of any other state, except France, Germany and Belgium, that the initiative should be taken by the British Government in the form of a frank and definite statement of British policy, and that no effort should be spared to keep in touch with both sides in order to take advantage of every development calculated to narrow the gap between the conflicting terms and terminate the present deadlock.

Fears Japanese Menace

Former Publisher of Vancouver World Warns Canadians

Toronto.—"Unless we do something and do it soon, the boundary between Canada and Asia will cease to be the Pacific Ocean—it will be the Rocky Mountains," said John Nelson, former publisher of the Vancouver World, who addressed the members of the Empire Club on "Oriental Immigration" here.

Mr. Nelson pointed out that the presence of the Orientals in large numbers, even if confined almost entirely to British Columbia, was a menace not only to the west, but to the whole of Canada. The Japanese, numbering about 35,000, constituted the greatest racial problem of British Columbia. Comparatively little difficulty was experienced with the Sikhs and Chinese, but most of the Japanese brought their wives along and settled down as permanent residents. While Chinamen were subject to a heavy head tax, Japanese were protected by treaties and were free to enter Canada, he declared.
